Social Communications

Safe Environment Policy Released

Social networks and other digital communication offer individuals, groups and the Catholic Church an opportunity to connect in positive ways. We are able to encourage one another, strengthen community ties and boldly proclaim the Gospel of

Jesus Christ.

While communication has technically advanced, it is at its core a human interaction. This [Safe Environment Social Communications Policy](#) (with associated forms) creates clear standards and expectations for online and digital communication to protect children, youth and individuals at risk in virtual

spaces.
